Introduction

If you are using a computer to view this document, please scroll down for a complete listing of dental services by county.

The 2014 New Jersey Dental Clinic Directory provides a central source of information on public dental clinics and services in New Jersey. These clinic services are primarily provided by local health departments, hospitals and Federally Qualified Health Centers (FQHCs).

The inclusion of any individual or organization in this Directory does not constitute or imply an endorsement by the New Jersey Department of Health. The information contained in the document is from organizations that responded to a "Dental Health Services Survey" conducted by the New Jersey Department of Health. **Please note that clinic information is subject to change.**

The dental clinic directory is designed to assist people who have difficulty accessing appropriate dental care due to insurance or financial constraints. **Many of the clinics have financial and/or residency requirements. Patients should be advised to call for an appointment and ask about required documentation regarding income or residency.**

Instructions and helpful tips for using this directory:

1. The dental clinics listed in this directory are organized alphabetically by county.
2. If you are unable to find care in your county, check with clinics in other nearby counties.
3. Be sure to ask about necessary documents to bring with you.
4. Sliding fee scales and other payment options vary from clinic to clinic and are subject to change. It may be helpful to confirm details with each clinic you contact.
5. Additional resources are included on the last page of this directory.
