

Student's Name _____

Drew University Health Service
Standing Order for Morocco
Summer 2009

VACCINES : Recommended per Centers for Disease Control (CDC)

1. MMR (measles/mumps/rubella) vaccine
2. Tetanus/diphtheria vaccine booster within ten years
3. Inactivated Polio (IPV) booster (a one time adult booster for travelers who have completed the initial series and have not had a booster within ten years)
4. Hepatitis A vaccine – one dose to be given **at least one month prior to travel**, with a booster dose at 6 -12 months
5. Typhoid Fever vaccine – one dose at least two weeks prior to travel
6. Hepatitis B vaccine – 3 doses given on a 0-1-6 month schedule. An accelerated Schedule is available for travelers.

PRECAUTIONS:

1. Food and water (see CDC handout)
2. Sunscreen, at least SPF 15
3. Insect repellent (30 -33% DEET –see CDC handout)

I have read, understood, and received a copy of the above recommendations for travel. If I have further questions, I understand that I may consult with Drew University Health Service or the health care provider of my choice.
