Hearing aid discount program saves you money

You now have a cost saving option to improve your hearing. According to the National Institutes of Health, only 20 percent of persons who need hearing aids use them. For many people this is due to the high cost.

Hearing aids can cost several thousands of dollars each, but with our program, high quality, custom-programmed hearing aids start at just $699 each.

As a UnitedHealthcare vision plan member, you can significantly reduce your hearing aid expense when you buy them from bi HealthInnovations™. Hearing aids from bi HealthInnovations use advanced technology to help you hear and understand speech better.
